
Policy Statement

E6NanoFab Occupational Safety & Health Policy

Hoated in the Department of Electrical and Computer Engineering (ECE), E6NanoFab is committed to:

1. Protect the safety, health & welfare of our staff, students, and visitors;
2. Eliminate or minimise any foreseeable workplace risk through proper risk management and work towards an accident-free environment;
3. Comply with applicable Occupational Safety & Health legislations and other requirements such as directives, guidelines, and standards prescribed by the University, the Faculty, and the Department;
4. Allocate sufficient resources for effective implementation of Occupational Safety & Health initiatives and programmes; and
5. Advocate staff & student engagement in Occupational Safety & Health programmes and acquire competency through relevant training.

This policy shall be reviewed annually, contributing towards continual improvement efforts. This policy shall be made available to any interested parties.
